Leading UK Vinyl Manufacturer

Designed to enhance the outdoor lifestyle, Fensys supply the very highest specification, low maintenance UPVC decking and verandas for Park Homes, Static Caravans and Gardens.

- 15+ years durability from a British company with over 30 years experience in thermoplastics
- A Fensys veranda does not need sanding, painting, staining or preservative treatment and has greater resistance to warping, rotting, cracking, splintering and staining than traditional wooden decks
- A superior finish with a choice of 3 balustrade style options and 8 fade resistant colours
- Non flammable and exceptionally strong with a galvanised metal sub-frame option
- Slip resistant whether dry or wet, our bare foot friendly deck boards are available in a choice of stylish natural colours.
- Tongue and groove deck boards with no exposed fixings complete the modern stylish appearance
- Professionally fitted and supplied through our network of approved installers
- Standard or bespoke veranda designs, free expert advice, free pre-survey estimates

Galvanised steel sub-frames

- a truly outstanding veranda

Accessorise your veranda with our ranch or solid skirting. Add post lights, matching fencing, ramps, glass panels or a self closing lockable gate

Premium EXCEL polymer deck board

A 100% polymer board produced with an advanced engineering grade thermoplastic cap layer giving exceptional weatherability. This board combines multi colour processing technology and a dual wood grain pattern giving excellent slip resistance and an unparalleled natural appearance

Antique Oak

Red Chestnut

Driftwood

Tawny

Premium ECO polymer deck board

A 100% polymer board with double credentials, incorporating higher levels of recycled material and a more efficient high grade cap layer, this board provides excellent weatherability and slip resistance whilst having a greener recycled element

Beige

Cream

Balustrades available in a choice of 8 fade resistant colours.

White

Cream

Green

Brown

Foiled Oak

Foiled Grey

Foiled Green

Natural Plastic Composite Deck board

Manufactured using a 60% wood 40% polymer mix, this double sided deck board has a traditional lined face and a wood grain patterned side. The material offers greater resistance to rotting and is more slip resistant than wood whilst retaining a natural appearance that will age and fade gracefully but needs no preservative treatment, staining or coating.

Cedar

Charcoal

Manufactured 'in house' in the UK to ISO 9001 standards by company with over 30 years experience in thermoplastics.
